Write-On™ Tape Dispensers make labeling easy and fast

Producing legible labels is so much easier on a smooth, flat platform than on curved surfaces such as bottles or vials. The new Scienceware® Write-On™ Tape Dispenser provides this convenience by always having labeling tape positioned on the large writing platform, ready to make into a label. Select either the benchtop model with weighted base or economy model that can be wall mounted to save space. All models are easy to use by both left and right handed users.

Each dispenser can hold 5 or more tape rolls with widths from 12 - 25mm (1/2 - 1"). Ideal for use with the full line of Scienceware, Write-On™ Tapes, F13463 series, available in 6 colors and three widths, 12, 19, and 25mm (1/2", 3/4" and 1"). This advanced tape adheres to any clean surface and resists moisture and most solvents. It withstands long exposure to temperatures as low as -73°C (-68°F) and up to 80°C (176°F) yet peels off without leaving a sticky residue.

Contact your preferred distributor to order these and other Scienceware® products.
